| Base Category<br>Consideration       | "A" Centre - Major/Minor<br>system  | "B" Centre - Mixed-Cohort<br>system   |
|--------------------------------------|---|---|
| Age grouping                         | Same year cohorts play together,<br>exception is U18 Major which is two<br>years mixed  | Two years cohorts play together,<br>exception is U18 which is three years<br>mixed  |
| Body checking                        | U14's play together as minor, U15's<br>play together as major (old Bantam)<br>U16's play together as minor,<br>U17/U18's play together as major (old<br>Midget)   | U14 and U15's (2 years) play together<br>(old Bantam),<br>U16, U17, U18's (3 years) play together<br>(old Midget)   |
| Registration<br>requirements         | Collingwood is very close to Orillia,<br>Innisfil, Owen Sound 'A' centre's<br>registration numbers and Collingwood<br>out-weighs greatly any other<br>GBMHL/PSMHL numbers. Collingwood<br>fits in the median range for other 'A'<br>centre's registration across all Ontario.             | CMHA has consistently had the highest<br>registration for any centre in GBMHL<br>and continues to be a succesful centre<br>for this reason. The OMHA is<br>continually assessing registration<br>numbers across the province while also<br>gauging centre success and<br>consideration for re-classification. |
| Team entry<br>classification         | 1st entry team 'A' for both minor and<br>major. "2nd" entry team 'BB' would be<br>mixed cohort and play in GBMHL in B/C<br>pool. Although CMHA must meet<br>certain criteria to apply, the OMHA can<br>approve a Major team only, and 2nd<br>entry as Minor-Major with no Minor<br>entry. | 1st entry team is 'B' for two year<br>mixed-cohort. 2nd entry team is 'C' for<br>two year mixed-cohort.   |
| League "level of play" consideration | Collingwood 'A' teams are anticipated<br>to play York-Simcoe however it is<br>important to note that application can<br>be made to have a less competitve<br>team play at the 'B' level in Georgian<br>Bay loop.  | Status Quo. U9-U18 would play in<br>Georgian Bay and Parry Sound Muskoka<br>loop within A,B,C pool depending on<br>classification.  |

| League play<br>specific to cohorts         | No "rep" offered for U8-9 under new<br>Hockey Canada guidelines. U10-11<br>will stay more local in Georgian Bay<br>loop. The older U12-18 we hope<br>would be York-Simcoe loop.   | No "rep" offered for U8-9 under new<br>Hockey Canada guidelines. U8-U18<br>stays the same. |
|--|---|--|
| Non-Resident<br>Players (NRP's)            | YES. 0-3 NRP's are allowed per team.<br>This is an Association decision each<br>year based on cohort registration and<br>team competitiveness   | NO. There are no NRP's allowed in 'B' centres.   |
| Travel expectations                        | CMHA has applied under the request of<br>being in the SimcoeYorkMHL which fits<br>best. *OMHA has recognized and<br>supported this request however not<br>officially approved yet. Travel radius<br>for 'A' teams varies between<br>Orillia/Barrie and Markam/Newmarket<br>depending on age division. | and ParrySoundMuskokaMHL loop for<br>'B' teams as well as 'C' teams.                       |
| Regular season<br>game number              | Under the YSMHL, 'A' teams would<br>play 23-25 games depending on<br>division. Any mixed 'BB' team would<br>play under GBMHL in a 20 game<br>season   | Games would remain the same at<br>approximately 20-22 game season<br>under the GBMHL/PSMHL |
| "AE" Alternate<br>Entry. (ie. AE3,<br>AE4) | now eliminated under the OMHA re-<br>categorization model   | now eliminated under the OMHA re-<br>categorization model                                  |
| "MD" Major<br>Development                  | Eligible to be applied for as a 2nd entry<br>team. This is a non-contact team with<br>emphasis on developing to the next<br>representative level  | Not eligible under this current system.  |

| Player retention          | As an 'A' centre, Collingwood is a good<br>middle catchment area for this level of<br>play between Owen Sound and Orillia<br>and Innisfil. CMHA expects to have<br>good player retention for this reason.<br>Some AA-AAA players may choose this<br>area to play as in any other year. | Collingwood is a great location as 'BB'<br>centre and subsequently 'B' centre as<br>well, competing against other similar<br>centres like Midland and Elmvale.<br>Some AA-AAA players may choose this<br>area to play as in any other year. |
|---------------------------|--|---|
| Local League              | No changes for LL. It would operate<br>status quo under the Georgian Bay<br>loop.  | No changes for LL. It would operate<br>status quo under the Georgian Bay<br>loop.   |
| Rep Tryouts               | Late August for CMHA, as OHF will be<br>phasing out Spring tryouts at AAA<br>below within 4 years anyway   | September as status quo, generally waiting for higher level tryouts to complete   |
| Registration fees         | CMHA would not be increasing<br>registration fees this year simply due<br>to 'A' level hockey if it were to happen.<br>"Rep" fees do have the ability to rise<br>due to increase in icetime for number<br>of games, etc.   | CMHA registration fees would remain<br>status quo. "Rep" fees are always<br>subject to fluctuation depending on<br>icetime costs, etc.  |
| Tournament entries        | Eligible for all minor and major entries<br>(single year groupings) as "A" centre<br>application with some exceptions<br>granted.  | Eligible for B and C (mixed year age<br>groups only) tournament entries with<br>some exceptions may be granted to<br>move up or down.   |
| Silverstick<br>Tournament | CMHA is currently working with S/S to<br>determine if a "BB" Silverstick<br>Regional is feasible since the AE<br>tournament would longer exists. The<br>Local League tournament would hope<br>to continue. These details continue to<br>be worked on.                                  | CMHA is currently working with S/S to<br>determine if a "C" level tournament is<br>possible as a Regional for Collingwood.<br>The Local League tournament would<br>hope to continue. These details<br>continue to be worked on.             |
